Slovenia

[Naše gospodarstvo/Our Economy](#) journal is an international open access, peer reviewed scientific journal, published continuously since 1954. We publish high quality theoretical and empirical scientific papers in the fields of macro and microeconomics, business and management sciences as well as economic and social policies, which provides insights in economic developments, the effects of economic policy and contemporary economic and business issues.

Naše gospodarstvo/Our Economy journal is striving to reach high publication standards. At present, the journal is indexed/listed in **EconLit, ERIH PLUS, ABI/INFORM Global, EBSCO, DOAJ, ProQuest, RePEc and numerous other databases stated [here](#).**

We publish high quality original scientific papers in English. Four issues are published annually. The double-blind peer review process takes between five and seven weeks on average.

## GUIDELINES FOR AUTHORS

Please pay special attention to the following instructions:

- We publish original scientific and review scientific papers written in English language.
- Please follow instructions to authors at [the journal's web page](#).
- The abstract should be structured in the following 4-6 parts (all in one paragraph): purpose, methodology/approach, findings, research limitations (if applicable), implications (if applicable) and originality/value.
- Include up to three JEL codes. JEL classification can be found [here](#).
- The paper should follow a typical structure of an original scientific paper including a comprehensive literature review. A well-presented IMRAD structure can be found [here](#).
- Complete Introduction: background, main goal, a brief literature review, the structure of the rest of the paper.
- Include a comprehensive literature review citing numerous up to date scientific papers published in high ranked scientific journals.
- In Methodology section explain in detail the methodology applied in the paper, including clearly stated hypothesis or research question, and present the sources and characteristics of the data.
- In Conclusion present main conclusions, include the answer to the research question/accept or reject the hypothesis with arguments derived from the original research presented in the paper, emphasize originality/value, limitations and further research possibilities.
- References should be cited according to the APA style. Among others, include papers published in high ranked scientific journals in the last 5 years.
- The papers of up to 30,000 characters can be submitted via e-mail to one of the following e-addresses: [our.economy@um.si](mailto:our.economy@um.si) or [nase.gospodarstvo@um.si](mailto:nase.gospodarstvo@um.si).

The manuscripts will be refereed according to the standards of the journal (double-blind review process) and, if accepted, published in one of the regular issues of the journal.
